ANNEX 3-17 AIR MOBILITY OPERATIONS

APPENDIX B: 618TH AIR OPERATIONS CENTER (AOC) (TANKER AIRLIFT CONTROL CENTER [TACC]) ORGANIZATION

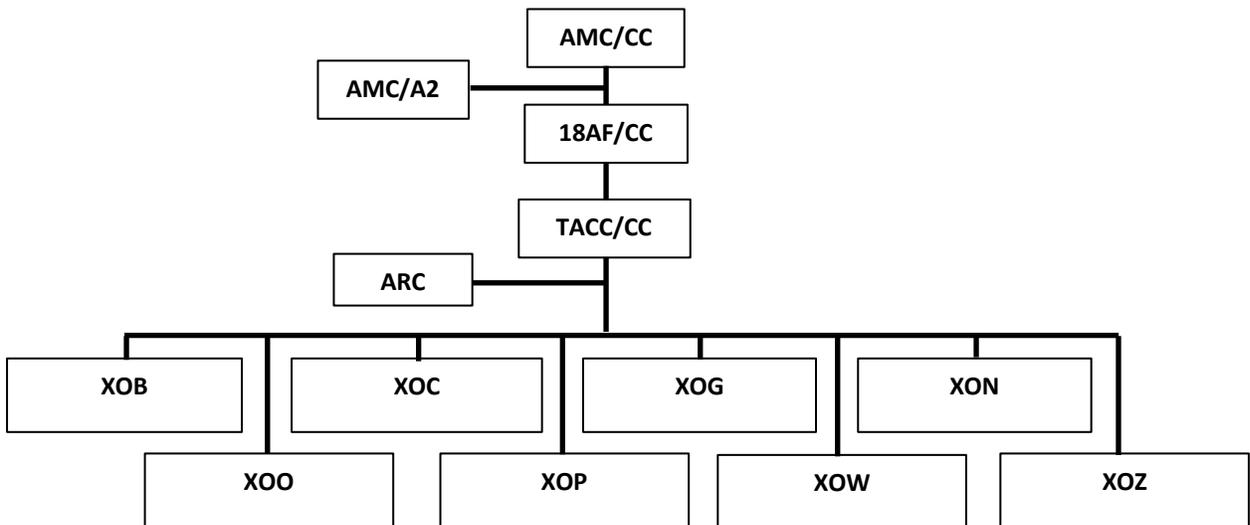

Last Updated: 5 April 2016

The following describe roles and responsibilities within the 618 AOC (TACC):

- ✦ **Director of operations (XOZ).** The director of operations provides immediate oversight and decision-making in the day-to-day activities of Air Mobility Command (AMC) and represents the 618 AOC (TACC) commander on operational issues.
- ✦ **Operations Management (XON).** Provides data, technology and resource support across the 618 AOC (TACC).
- ✦ **Mobility management (XOB).** Allocates/tasks units to support airlift and air refueling requirements. Coordinates with Air Reserve Components (ARC) on their availability to support worldwide mobility taskings.
- ✦ **Command and control (XOC).** Directs assigned missions within 24 hours of mission start. Provides diplomatic clearances, flight planning, waiver facilitation, integrated flight management, emergency actions support, en route aircraft logistics support, and strategic aeromedical evacuation (AE) execution management.
- ✦ **Current operations (XOO).** Plans and monitors organic/commercial airlift and air refueling missions to meet the customer requirements for movement of passengers, cargo, support for classified programs, nuclear airlift, fighter and bomber deployment and employment, air refueling, executive airlift, homeland defense, and the nation's nuclear commitment. Acts as the focal point for tanker/airlift special access required programs and is the single source validator for all Air Force air refueling missions.
- ✦ **Global readiness (XOP).** Single manager for executing global reach—airlift, air refueling, special operations, AE, operational support, and Presidential airlift in support of national goals and objectives. Integrates total force to implement directives/taskings from government agencies for movement of national and international resources in response to wartime needs, contingencies, exercises, and humanitarian relief efforts.
- ✦ **Global channel operations (XOG).** Directs worldwide strategic channel airlift operations for passenger and cargo movement in the Defense Travel System .

Develops route structures, schedules airlift, and provides oversight on channel system performance.

- ★ **Global weather operations (XOW).** Provides full spectrum weather support for all mobility missions under the command and control of the 618 AOC (TACC). Additionally, provides operational mission weather support to training flights at all Air Mobility Command (AMC) main bases as well as co-located ARC units. Produces climatological reports, command level briefings, and fulfills special weather support requests in support of US Transportation Command, AMC, 18 AF, and 618 AOC (TACC) leadership.
